UNIVERSAL BANKER

New for 2017! With the reduced in-branch transactions and customer visits and increase in technology, less traditional teller functions are needed. No longer can a frontline team member say: “It’s not my job!” Today’s frontline team is shifting from traditional positions (tellers, new account representatives, financial service representatives, etc.) to a multi-tasking, “universal” banker. Today’s customer base is shifting from the traditional, visit the bank twice a week to quick response, electronic banking relationship with the bank.

This workshop will focus on the essentials for today’s universal banker in providing exceptional service, making referrals, and building profitable relationships from millennials to baby boomers. Contact Gina Meyer for additional information at rmeyer@miba.net.
