- ◆ CEO's
- ◆ Security Officers
- ◆ Compliance Officers
- ◆ IT Officers

WEDNESDAY, SEPT. 26

8:30 am Registration and Breakfast

9:00 am-10:00 am Social Media Usage in Banks, Dangers and Safety Measures

Presented by:
Heather Campbell, CIA,
K-Coe Isom, LLP
Eric McMillen, Chief Security Architect,
The McMillen Group
As social media becomes an increasingly popular marketing tool in banks, the Dangers associated with social media hackers and breaches also intensifies. Learn what hackers are doing to breach social media accounts and the measures to take to keep your account safe. Also, learn how to implement a social media policy to guide your bank to best practices.

10:00 am - 11:00 am Employee Security Training-You are Only as Strong as your Weakest link

Presented by Eric Langendorfer,
Network Engineer
JMARK Business Solutions
It is said that a chain is only as strong as its weakest link, and the weakest link in cybersecurity is usually every employee at a business, including you. Not only are individuals a target for criminals, but the tactics that hackers use are subtle, hard to detect, and constantly changing. In this session we will talk about the strategies to turn this weak link into the strongest link.

11:00 am- Break

11:10 am-12:00 pm Looking Forward-2018 Cybersecurity Trends

Presented by Tim McFarland,
Manager, West Des Moines
CliftonLarsonAllen LLP
From data breaches to malware, CliftonLarsonAllen's Tim McFarland will share the latest in cybersecurity trends as well as trends to look out for in the future. Also, learn how to assist Sr. management and your Board of Directors in understanding the risks associated with IT Security.

Noon -1:00 pm Lunch

1:00 pm-2:00 pm Frauds in Real Estate Transactions

Presented by Matthew Wine,
Attorney At Law
Spencer Fane LLP
Join us as Matthew Wine discusses banking real estate transaction fraud. Learn about the risks associated with transactional matters containing an electronic/hackable component such as wire fraud.

2:00 pm- Break

2:10 pm - 3:10 pm Cybersecurity and the Dark Web

Presented by Rex Johnson,
Director of IT Risk Services,
BKD, LLP
Breaches are on the rise, and have significantly increased over the past few years. But what happens to the data once it is compromised? It is generally sold on the dark web. The dark web is not as accessible as the main internet. But to those who venture there, they can find a black market of data and merchandise sold by cyber criminals. Cyber risk and the dark web pose major challenges to banks. The problems are significant, along with the risks. Join us as we offer strategies and best practices for addressing both cyber-attacks and the dark web by today's cybercriminal.

3:10 pm Day 1 adjourns

THURSDAY, SEPT. 27

8:30 am **Registration and Breakfast**

9:00 am-10:00 am **Social Engineering-How Criminals “Hack” Your Employees to Beat Computer Security**

*Presented by Thomas H. Douglas
CEO*

JMARK Business Solutions

As computer security has become more complex and reliable, and thus harder to break into, cyber criminals are increasingly turning to using deceptive means to trick a person into giving up personal information in order to obtain passwords and network access, or even an outright transfer of funds. This presentation will shine a light on the common tricks hackers use and explain how these nefarious attacks can be easily defeated by training your personnel.

10:00 am-11:00 am **Bank Security Meets Branch Transformation**

Presented by:

Bankers Security Safe & Vault

Branch transformation equipment, such as Cash Recyclers, are becoming increasingly popular in banks across the state. Learn about the added security benefits of this technology and how they can help your bank combat always-present security threats. Also, we'll discuss the upcoming Windows 10 upgrade.

11:00 am **Break**

11:10 am-12:00 pm **Human Trafficking**

*Presented by Chad M. John,
Supervisory Sr. Resident Agent
FBI-Kansas City Division*

Learn about human trafficking, signs and how criminals are laundering money in human trafficking rings.

Noon-1:00 pm **Lunch**

1:00 pm-3:00 pm **Armed Intruder Response and Robbery Training**

*Presented by Chad Stieferman
Owner, Advanced Tactical, LLC
Patrol Sergeant / SWAT Member
Jefferson City Police Department*

2 HOUR SESSION!

3:00 pm **Break**

3:10 pm-4:10 pm **ATM Skimming and Card Cloning**

Presented by Michael Burke

*Robbery & Crisis Management Consultant
SHAZAM*

This 1 hour training prepares you to identify internal and external skimmers at the ATM, POS and fuel dispensers along with cameras that capture PINs. Real-life photos show you exactly what to look for while videos highlight how thieves set up these devices and steal from financial institutions, accountholders and merchants. A live demonstration will emphasize just how quick and easy it is to clone a card and make an immediate transaction.

4:10 pm **Cocktail Reception**

FRIDAY, SEPT. 28

8:30 am **Registration and Breakfast**

9:00 am-10:00 am **Cyber-Money Laundering**

*Presented by Ben Hayden,
Risk Services Supervisor
SHAZAM*

A 2018 study found that criminals utilized the Internet to launder \$80-200 billion each year. The traditional stages of money laundering are becoming blurred, and the tracks are getting harder to follow. As new payment technologies emerge, criminals are finding ways to exploit them and use them for laundering purposes. This presentation will look at how criminals are using the Internet to launder money and what your institution can do to combat it.

10:00 am-10:45 am **Comments from a Consultant**

*Presented by Mary Boyd,
CEO, CISSP, CISA, CISM, CGEIT
Superior Consulting, LLC*

Superior Consulting's Mary Boyd will discuss what their firm has been seeing on recent IT Exams and what your bank can do to prepare.

10:45 am-12:00 pm **Examiner Panel**

*Joe Douglass, MO Division of Finance
Jackie Nugent, Federal Reserve Bank of KC
AJ Steiger, FDIC*

Ask the experts IT exam related questions and discuss IT exam hot topics!

Noon **Meeting Adjourns**
